TIEDOWNS

**SUPER STRONG & DEPENDABLE.!!**  
**BEWARE OF IMITATIONS**  
NEVER RISK YOUR BIKE ON  
INFERIOR TIEDOWN BRANDS

**Australia's Most Trusted Tiedown Brand.**

**Aerofast Motorcycle Tiedowns are manufactured using high performance polypropylene webbing.**

Aerofast's superior quality polypropylene fibre is sourced from Europe and woven into top specification high strength weaving under stringent controls at Aerofast's own production facility in New Zealand.

**AEROFAST'S POLYPROPYLENE WEBBING**

- Limits stretch and performs immediate elastic recovery
- Is highly resistant to UV radiation
- Maintains 100% strength in wet conditions.

**WARNING!!** ( Other webbing material can lose 5 - 20% strength when wet )

**NEW PLASTIC COATING!**  
Available on 1.5" Karabiner

**NZ Made**  
Custom woven in NZ to ensure high quality standards are met

**Durable**  
High abrasion resistance, repels liquids, oils and chemicals

**UV Resistant**  
UV treated webbing for longer life and fade protection

**Powerful**  
High shock load performance. Maintains incredible strength even in wet conditions

**Standards**  
Conforms to Australia and NZ safety standard AS/NZS4380:2001

**Ratchet Buckle**

Non-slip spool spreads the load on the webbing. Great for use inside vans where access is limited. Perfect as a back-up set on the rear of your bike or quad. 250mm pulldown.

**ATV Cargo Equipment**

**1" (25mm) Webbing**

Code	Lower Anchor	Colour	RRP
7101941	Ratchet Tiedown 25mm x 4M Single Hook	Black	\$14.95

**IMPORTANT:** External objects can cut tiedowns by rubbing and severing the webbing fibres if the strap makes contact with a hard or sharp surface. When lashing your machine be sure to run the tensioned section of strap between anchor points clear of contact with any part of the transport vehicle or motorcycle. We recommend the use of four straps to secure your machine. Two up front and an additional two at the rear for added security.
