

UCLEAR
DIGITAL
BE HEARD

The **AMP PRO Bluetooth® Audio Kit** is the premium Bluetooth® helmet and audio communication system by UCLEAR Digital. Paired with the industry-best Pulse Pro speakers, the system features hi-fi studio sound that delivers a warm natural voice, powerful bass, and clean highs. An unlimited number of riders can be connected using the AMP Pro's full-duplex intercom technology.

CLEARLink Mobile App

Enjoy the ultimate convenience with the [CLEARLink](#) mobile app available now from UCLEAR Digital. For use with the AMP helmet audio and communication system, the industry-exclusive mobile app allows users to update firmware and customize preferences wirelessly from any Smartphone or tablet.

Pulse Pro Audio

If you are looking to turn your sound experience to 11, then look no further than the AMP Pro's [Pulse Pro Speakers!](#) Enjoy the unsurpassed audio quality of the Pulse Pro Speakers, featuring Hi-Fi studio sound that produces powerful bass, warm, natural voice, clean highs. Your ears will thank you!

- **Extreme Bass and Clean Sound**

Our audio engineers worked feverishly on the Pulse Pro to bring you studio quality, Hi-Fi audio. From crystal clear voice audio to exceptional music playback, they nailed it. These guys love their hip-hop so they pumped up our sound drivers to bring you the best sound in helmet audio.

- **Designed for the Ultimate Audio Experience**

The Pulse Pro in-line microphones were designed for half, 3/4, modular, and full face helmets that have acoustic challenges and require a higher quality of audio performance. Pulse Pro microphones have an extended microphone that can be custom routed through the helmet for optimal placement allowing for the best audio clarity.

AMP Go Bluetooth Helmet Audio System

Complete with high-fidelity audio and exclusive concealed microphones, the Amp Go delivers unrivaled audio quality in a versatile, compact package. This entry level helmet communication system pairs full-duplex intercom with advanced Bluetooth capability.

The UCLEAR AMP Go full-duplex Bluetooth® helmet audio system is ideal for single rider and small group communications. Using the integrated Boost Plus speaker system, you can enjoy exceptional audio quality as you head down the highway. Our exclusive noise-cancelling ABF technology eliminates virtually all background noise, while our patented DSP algorithms triangulate your voice's "sweet spot" to produce clear voice for phone calls and intercom conversations.

The UCLEAR Digital AMP Go is built on the foundation of the popular Bluetooth® AMP Series and comes with:

- **Bluetooth® 4.2** connectivity,
- **Small Group (4 rider) Intercom** - compatible with HBC200, AMP & AMP Pro
- **200m Intercom Range** - perfect for small groups or Rider to Pillion communication
- **ClearLink** - Control & update your AMP Go via the Clearlink App
- **Boost Plus** (Boomless) Speakers with Concealed Microphones
- **Cross Brand Compatibility**
- **Industry's Most Portable System**
